A 14-bed Unit for Male and Female Clients

KeyStone Center ECU Professional Assessment Center (PAC)

The PAC is an intensive outpatient assessment program designed to answer concerns regarding the presence of sexual compulsivity among persons uncertain of the addictive possibility of their behaviors. The PAC is multi-disciplinary with an in-depth assessment provided in the areas of:

- **Personality Organization**
- **General Cognitive Ability**
- **Spirituality**
- **Addictive Behaviors**
- **Family Systems**
- **Relationship Abilities**
- **Psychosexual Functioning**
- **Psychiatric Functioning**

Individuals can be referred by their Outpatient Clinicians, another provider or professional licensing boards.
